

PHARMAPACK  | **ASIA**
by informa...

3 -4 November 2026

Marina Bay Sands, Singapore

Your **premium platform** for innovative drug delivery solutions

Asia's premium event to specialise in packaging and drug delivery — **connecting global suppliers to Asia's fastest-growing pharmaceutical market.**

From our success in Europe to a new beginning in Asia

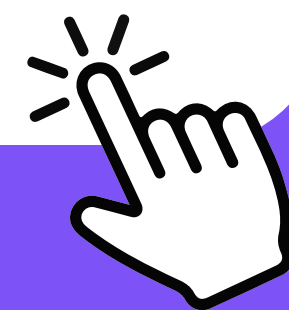

Pharmapack Europe is a leading event dedicated to pharmaceutical packaging, drug delivery, medical devices, and machinery. Held annually in Paris, it serves as a hub for innovation, networking, and collaboration within the pharmaceutical industry.

Pharmapack Asia marks the next bold chapter —bringing our global expertise, trusted reliability, and expansive network to Asia’s dynamic marketplace, and establishing Singapore as the region’s dedicated hub for pharmaceutical packaging, drug delivery, medical devices, and machinery.

supporting formulation, filling, and packaging services

Singapore's Dynamic Pharmaceutical Packaging Market

Health-Conscious Population:

Singapore's increasingly health-aware residents are driving demand for advanced pharmaceutical solutions.

Innovation Hub:

As a leading regional center for contract manufacturing and clinical research, Singapore inspires local packaging providers to adopt agile, forward-thinking, and innovative processes.

Distribution Hub:

With its strategic location and world class infrastructure, Singapore serves as the regional distribution hub for Asia.

Compelling Consulting Services

Access to expert local advice on regulations, market entry, and innovation.

Drug Delivery market:

The revenue in this market is expected to demonstrate an annual growth rate (CAGR 2025-2030) of 6.15%, culminating in a market volume of US\$159.82m by 2030.

Why Singapore?

- **Estimated Population:** Approximately 5.9 million people
- **GDP per capita:** Around USD 84,500 (one of the highest in Asia and worldwide)
- **Current Market Size (2024):** USD 1.75 Billion
- **Projected Market Size (2032):** USD 3.30 Billion
- **Compound Annual Growth Rate (2025–2032):** 9.5%
- **Primary Packaging Leads the Way:**
In 2024, the Primary Packaging segment dominated the market, generating USD 1.36 Billion in revenue.
- **Parenteral Drug Delivery Packaging Booming:**
The Parenteral Drug Delivery Packaging segment is set to experience the fastest growth, with a projected CAGR of 10.52% from 2024 to 2032.
